GEIGER

Cybersecurity solution for small businesses

Cybersecurity?

We all know that there are cybersecurity threats. But…

How to identify them?

How to reduce our risks?

How to even get started?

29 January 2021

GEIGER

It's too complicated…

There are plenty of cybersecurity solutions available.

Most of them are complicated and costly.

They don't match the needs of small businesses!

GEIGER

29 January 2021

It shouldn't be!

Radiation is invisible to our eyes. But with the right tools, it's easy to detect.

Couldn't detecting cybersecurity risks be as easy?
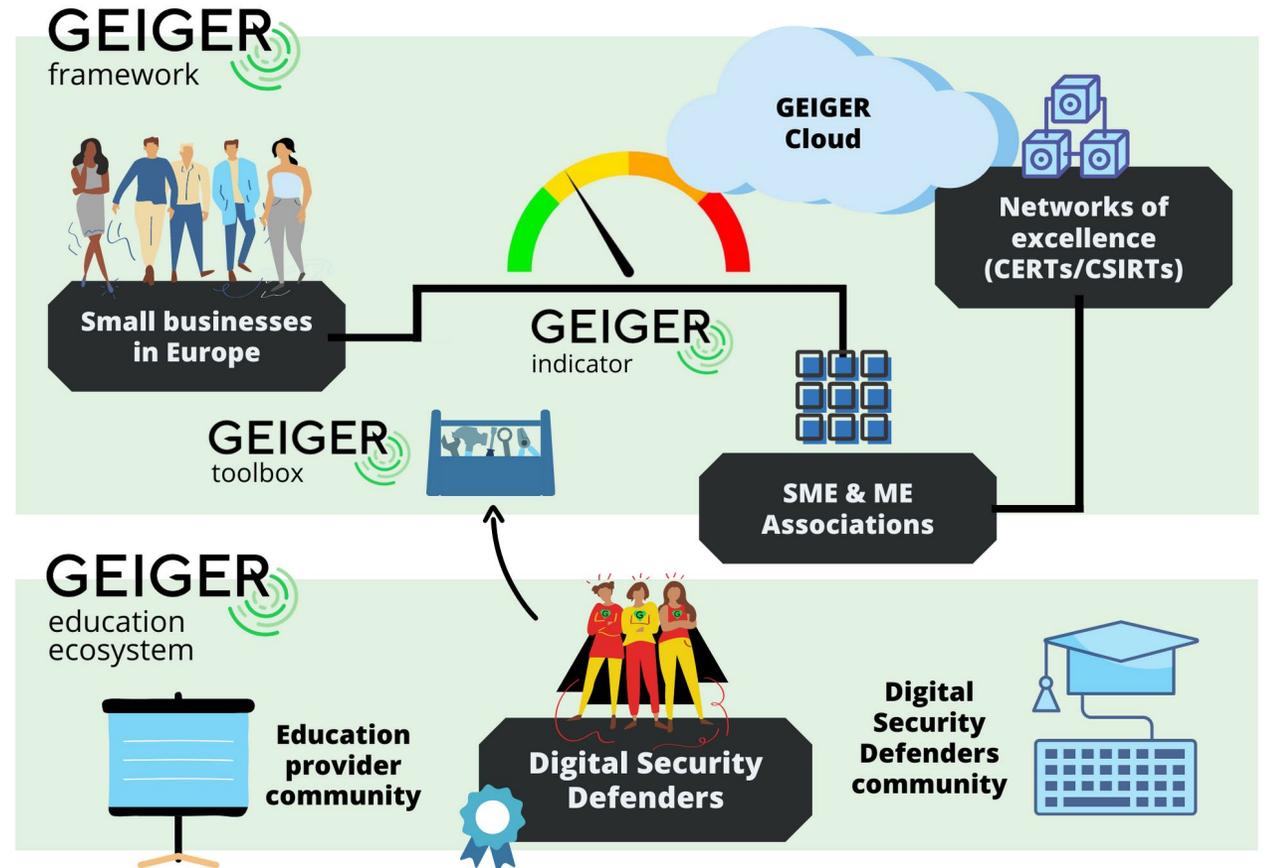

GEIGER

29 January 2021

This is why we have GEIGER!

GEIGER is an innovation project that will help small businesses' face their cybersecurity challenges

The GEIGER project will:

1. Develop a "Geiger counter" for cybersecurity

2. Build an education programme for "Digital Security Defenders"

GEIGER

29 January 2021

GEIGER solution

The GEIGER solution will be composed of:

1. Risk indicator

2. Recommendation tools

3. "GEIGER Cloud", platform for incident reporting and security information exchange

So… Just another cybersecurity tool…?

29 January 2021

Digital Security Defenders

Support needed for SMEs

GEIGER education ecosystem

- Education programme for "Digital Security Defenders"
- Communities of education providers and Security Defenders

GEIGER will pilot in:

- Switzerland: Apprentices at a vocational school (BBB, SKV)
- The Netherlands: Accountants (SRA)
- Romania: Small business and startup owners (Cluj IT)

Familiar and trusted contacts as "ambassadors" for better cybersecurity practices

GEIGER

29 January 2021

GEIGER Consortium

GEIGER is being developed by a strong consortium of 18 partners from nine countries:
